

AQ-BH-5.1DVC-2006

The Nanz Bauhaus collection, based on designs by Walter Gropius from the 1920s, embodies the School's belief in simple geometric forms as the basis of good design. With coordinating bath, shower, basin fittings and accessories, The collection can be coordinated throughout a project. The NANZAQUATIC Volumetric/ Diverter Shower control is manufactured in solid brass and features Fluehs technology. The control works with 1/2" or 3/4" NANZAQUATIC volume control valves, 2-way and 3-way diverter valves, with or without shared ports. A variety of bath friendly finishes are offered. Contact one of our offices for more information and assistance with specification.

Baseplate: 2"
Height: 2 1/2"
