

### AQ-FT-3F.2HS-2017

NANZAQUATIC, the bespoke plumbing collection from The Nanz Company, offers custom bath, shower and basin fittings to designers and builders for high end projects. All fittings are constructed from solid brass and are equipped with precision manufactured valves designed to prevent scalding and conserve water. Configurations for shower and bath controls may be customized by choosing from our diverse range of handles, bells, and backplates. Shower heads can be paired with corresponding flanges and tub fillers, as well as bath accessories and cabinetry. A variety of finishes are offered. Contact one of our offices for more information and assistance with specification.
