

AQ-PM-5.1DVC-1013

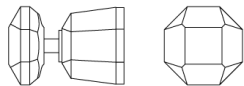

Originally fashioned for a late 80s showhouse, the faceted surfaces of the Nanz prismatic collection were inspired by the art of the stone cutter. Joined with a matching set of complementary components the collections can be used throughout a project and is another wonderful example of a highly versatile transitional design style. The NANZAQUATIC Volumetric/ Diverter Shower control is manufactured in solid brass and features Fluehs technology. The control works with 1/2" or 3/4" NANZAQUATIC volume control valves, 2-way and 3-way diverter valves, with or without shared ports. A variety of bath friendly finishes are offered. Contact one of our offices for more information and assistance with specification.

Width: 2-1/8" x 2-1/8"

Height: 3-1/8"

Knob Style: AQ-T1013.5008

Collection: Prismatic
