

EC-7430

The EC-7430 heavy duty roller latch with adjustable silent action rubber roller is used to secure full sized swinging doors. The door is held in place as the spring-loaded roller falls into the depression of the strike. See all available finishes here.[86905](#)

Backplate: Roller 1" x 3-3/8"

Backplate: Strike 1-11/16" x 2-1/4"
