

N° 11220

Fine crystal handles gained popularity in the late 19th century and have since been a symbol of refinement and elegance in the home. The N° 11220 bears a smooth oval crystal knob which is hand cast and polished using the same manufacturing techniques used in the 1880s. The interior of the crystal is mirrored and bezel-set in the columnar shank which is encircled by the simple ring of the rose. A variety of alternative rose designs with varying degrees of decoration are also available. The knob is available in all plated and patinated [finishes](#) and can be supplied for either full mortise sets or tubular latches if preferred. A minimum order is required.

Height x Width: 2-1/4" x 2-3/4"
