

## N° 2016

The No 2016 lever pairs early 20th century functional aesthetic with subtle ornamentation as the body gently flares outward and terminates with a shallow ogee. The streamlined shank flares out to meet the subtle circumscription of the rosette. This lever is often specified with the No 1030 knob. [Finishes](#) available include polished chrome, burnished brass, polished nickel and pewter as well as a wide range of other plated and patinated finishes. The handle can be used with traditional full-mortise locksets or manufactured for use with multi-point doors, tilt & turn windows as well as lift & slide doors.

Length: 4-1/2"  
 Projection: 2-3/4"  
 Lever Style: Transitional  
 Collection: Modern
