

Nº 2128

The No 2128 lever evokes the drum-shaped motif of the turn of the 20th century. The lever's design treats traditional form with the simplicity of modern elegance; the handle is described on either end by a cylindrical band bisected by a cove, and a ringed boss surmounts the terminus. The drum motif repeats itself in the flat rose, which is also circumscribed by a cylindrical band. The lever was designed to accompany the No 1128 knob, and can be used with traditional full-mortise locksets or manufactured for use with multi-point doors and tilt & turn windows. All Nanz plated and patinated [finishes](#) are available.

Length: 4-5/8"
 Projection: 2-7/8"
 Rose Diameter: 2-1/8"
 Lever Style: Transitional
 Collection: Art Deco
