## N° 3754

The N° 3754 modern lift-off hinge, sometimes called a *paumelle*, updates 18th-century French design by eliminating superfluous ornament. The upper and lower cylindrical knuckles are separated by a disk-shaped bearing that creates a sense of proportion that works well in both traditional and modern interiors. The hinge is handed; the right-hand hinge is shown. Nanz also manufactures a matching [cabinetry paumelle](#). All Nanz plated and patinated [finishes](#) are available.
