

## N° 5843KE

The N° 5843 Louis XVI directoire escutcheon is defined by its linear simplicity and clean form. Designed to be used with Multi-Point locking systems, the escutcheon can be provided with a cut-out for profile cylinder or thumbturn or simply applied as a push plate. As Multi-Point systems vary greatly in configuration, it is necessary to provide exact specifications of the lock being used on a project before the escutcheon can be manufactured. Most Nanz levers can be modified for use with Multi-Point locks. Custom sizes are available upon request. All Nanz plated and patinated [finishes](#) are available.

Height: 8-3/4"  
 Width: 2"  
 Projection: 1/8"
