

N° 5844KE

The design of the N° 5844 Louis XVI escutcheon reflects a transitional period of the late 18th century with its florid, graceful approach and symmetrical, linear austerity. The escutcheon is designed to be used with Multi-Point locking systems and can be provided with a cut-out for profile cylinder or thumbturn or simply applied as a push plate. As Multi-Point systems vary greatly in configuration, it is necessary to provide exact specifications of the lock being used on a project before the escutcheon can be manufactured. Most Nanz levers can be modified for use with Multi-Point locks. Custom sizes are available upon request. All Nanz plated and patinated finishes are available.
