

N° 6937

Thru-door pulls are flush on three sides, and accordingly low-profile. The No 6937 pull may be used on both passage pocket and passage swing doors. When used on swing doors, the pull is typically paired with a No 7820 catch, and has a finger reveal on the far side to grip. While initially specified for modernist interiors, designers have recently embraced thru-door pulls for traditional and transitional interiors. Available in all plated and patinated finishes. Modifiable as necessary to accommodate 2-1/4" doors or alternate style and rail configurations.
