

N° 8165

The attenuated shape of the No 8165 olive cabinet knob is derived from that of an early 20th-century zeppelin. The sweeping flare of the shank descends into a flat step followed by an elegant quarter round, a traditional style molding that complements the otherwise modern contour. All Nanz plated and patinated [finishes](#) are available.

Length: 1-1/2"

Width: 1/2"

Projection: 1-3/8"
