

## Nº 9217

The Nº 9217 is a simple lever designed to operate "Lift and Slide" doors. The beveled escutcheon incorporates a positive stop mechanism that holds the lever in a locked or operable position. The detail on the face of the shank and the edge of the escutcheon keeps it from looking too severe and makes it suitable for a variety of different styles and interiors. The modern handle tapers slightly to a cylindrical shank and is capped off with a gentle dome. All Nanz plated and patinated [finishes](#) are available.

Length: 9"

Backplate: 4-1/2" x 1-1/2"
