

N° 8164

The N° 8164 cabinet knob maintains an organic appeal with its minimalist and parabolic form. The face of the knob has a shallow, ergonomic cavity. On many occasions it has been specified alongside the No 1699D. It is suitable for neo-classical and modern interiors. As with all Nanz products it is available a variety of plated and patinated [finishes](#).

Projection: 1-1/8"

Diameter: 1-1/4"
