Atlantic Thermostatic Shower Trim and Valve  
AQ-AT-5.2-1004\_2004

The Atlantic thermostatic shower set is quintessential transitional design in form and shape. The valve and trim are constructed of solid brass, uses anti-scalding thermostatic technology, features a safety push button, and can control 1 or 2 outlets at the same time. The collection pairs seamlessly with the No. 2004 door lever and coordinated cabinet accessories. A comprehensive suite of aesthetically related bath accessories is also available, including toilet paper holders, robe hooks, shower door pulls, and toilet trip levers. It is produced in six Nanz decorative finishes.
